DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claimed compound is indefinite because the notations in formulae (Ia) and (B) are not defined. It is noted that the claim is an independent claim.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-2 and 4-5 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 2001-166,131.

The reference discloses an optical filter with a filter layer containing a dye and a polymer binder on a transparent substrate. The compounds (22) and (25)-(26) on page 38 having a squarylium core read on the present compounds of formulae (I) and (II). The compound 22 reads on the present formula (II) and the compounds 25 and 26 read on the present formula (I) with a group (B). Therefore, the reference anticipates the claimed invention.

Allowable Subject Matter

4. Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
